- (3) S1S through S3 are based upon sewer service only

Customer Classification	Minimum Charge Per Month
S1S: Residential Sewer Only	\$52.26
S3: Commercial Sewer Only	\$24.34

B. Consumption charge.

- (1) In addition to the foregoing minimum charges, all metered consumers shall pay a consumption charge per consumption in excess of 1,000 gallons per month as follows:

Consumption (gallons per month)	Residential per 1,000 Gallons	Commercial per 1,000 Gallons
1,001 to 3,000	\$9.66	\$10.90
3,001 to 5,000	\$8.73	\$9.43
5,001 to 20,000	\$7.27	\$7.98
All over 20,000	\$3.30	\$4.02

- (2) All those customers billed through customer classification M2 through M9 shall have an increased minimum gallon per month for the number of minimum bills. For example, when there are two minimum bills, the minimum gallons will be 2,000 gallons. Further, for example, an M5 customer the minimum gallons will be 5,000 gallons. Any usage in excess of 5,000 gallons will be billed at the consumption charge set forth above.

- (3) Surcharges.

[1] Industrial establishments discharging sanitary sewage and/or industrial wastes into the sewer system having a BOD in excess of 200 ppm and a suspended solids content in excess of 260 ppm shall pay a strength of waste surcharge, in addition to applicable volume charges set forth in this Section 1, equal to 5/100 of 1% for each ppm by which the BOD exceeds 200 ppm plus 5/100 of 1% for each ppm by which the suspended solids exceed 260 ppm. Surcharges shall be applicable to billing for sewer rentals or charges imposed upon all industrial establishments. The percentage of surcharge shall be applied to the volume charge for the particular industrial establishment.

- [2] The strength of waste to be used for establishing the amount of surcharge will be determined at least once annually either; by suitable sampling and analyses of the wastes for a three-day period during which time the strength of waste being discharged or production is at a maximum; or by relating production and waste strength at the time of sampling to waste strength at maximum production if sampling is not performed at the time of maximum production; or from estimates made by this Borough; or from known relationships of products produced to strengths of waste for those industries where such factors have been established. In establishing waste strengths for surcharge purposes, analysis shall be made in accordance with procedures outlined in the latest edition of "Standard Methods for the Examination of Water and Wastewater" published by the American Public Health Association, Inc.

Section 2. Garbage Services.

- A. Fees for residential collection and disposal service shall be set at \$51.60 per month, effective February 1, 2024.
- B. The fees for commercial collection and disposal service shall be \$95.11 per month, effective February 1, 2024.
- C. All bills for collection and disposal service shall be rendered monthly to the owner of each property based on the number of residential and/or commercial units. A residential unit and a commercial unit shall include occupied and unoccupied units.
- D. The use of a dwelling or accessory building in the pursuit of an occupation pursuant to regulations contained in Section 500-40 of the Jim Thorpe Borough Code shall be deemed a residential use for purposes of fees for garbage services.

Section 3. Water Services. The rates charged by the Borough for water furnished by it to the public shall be as follows:

- A. Minimum charge. All water residential customers shall be subject to a monthly minimum charge based on the required size of meter to render adequate service, which minimum charge shall entitle the consumer to consumption of 1,000 gallons of water.

Any usage in excess of 5,000 gallons will be billed at the consumption charge set forth above.

Section 4. Terms of payment.

- A. Bills for water, sewer and garbage furnished for all purposes shall in general be rendered on a monthly basis, a month to consist of any period of approximately 30 days. A fractional part of a month equal to or exceeding 15 days shall be considered a full month for the purpose of determining the minimum charge. Upon request of any user, the Borough of Jim Thorpe will remove the water meter from his property and discontinue minimum charges thereon, and will thereafter upon request and payment of a reconnection charge, established pursuant to a resolution of the Borough Council, reinstall the meter or a similar meter at the property and reestablish service.
- B. Usage, service and minimum charges shall be payable at the Municipal Office on a net basis to and including the date shown on the bill rendered. Thereafter, the gross bill shall become due and payable. Failure to receive a bill shall not entitle an owner or user to an extension of time for payment. Any owner or user whose account for utility service is in arrears shall pay the gross amount on each bill until all outstanding indebtedness is paid.
- C. If an employee of the Borough of Jim Thorpe collects the amount of delinquent bill at the user's or owner's premises prior to termination of service, a collection charge of thirty (\$30.00) dollars shall be collected therewith.
- D. Failure to pay either usage, service or minimum charges within 15 days after the gross bill becomes due shall be cause for termination of water services until payment is made on all outstanding charges for water service, provided that in no case shall the water supply be shut off until 10 days after written notice of an intention to do so has been mailed to the person liable for payment.
- E. If service is terminated under the conditions set forth in Subsection D above, a reconnection charge of \$30.00 shall be paid before service is restored.

- F. If the Borough of Jim Thorpe has agreed to provide water service through a separate meter and separate service line to a residential dwelling unit in which the owner does not reside, the owner shall be liable to pay the tenant's bill for service rendered to the tenant by the Borough of Jim Thorpe.
- G. All bills shall be considered due and payable when rendered. Payments will be considered delinquent if not received in the Borough Office prior to 15 days after the date of the bill. If payment is not received in the Borough Office within 15 days after the date of the bill, the bill shall be subject to a penalty of 15%. If the amount on a delinquent account exceeds one thousand (\$1,000) dollars, the Borough may refer the account in to the Borough Solicitor with instructions to proceed for the collection for unpaid charges, together with all penalties thereon and including cost of compelling payment.

Section 5. Sewer Tap in Fees:

The tap in fee for sanitary sewer service as set forth in Section 355-11 of the Jim Thorpe Borough Code shall be Eleven Thousand Seven Hundred Fifteen (\$11,715.00) Dollars per EDU as defined in the aforementioned Ordinance of the Borough of Jim Thorpe. In addition, at the time of application to connect a sewer service, a deposit in the amount of \$100.00 shall be paid. Further, when the final sewer connection is made, an inspection fee of \$90.00 shall be assessed.

Section 6. Water Connection Fees:

The tap on fee for water service as set forth in Section 355-11 of the Jim Thorpe Borough Code shall be Twenty-Three Thousand Four Hundred Ninety-Five (\$23,495.00) Dollars per EDU as defined in the aforementioned Ordinance of the Borough of Jim Thorpe. The connection fee for water service as set forth in Section 431-4 of the Jim Thorpe Borough Code shall be One Thousand (\$1,000.00) Dollars per EDU as defined in the aforementioned Ordinance of the Borough of Jim Thorpe. In addition, at the time of application to connect to service, a deposit in the amount of \$100.00 shall be paid. The Customer Facilities Fee shall be based on the actual cost of connection from the property line or curb line to the proposed dwelling building to be served. This amount shall be determined at the time of connection. A deposit of \$100.00 shall be made towards the Customer Facilities fee.

Section 7. Meter Testing Fee:

The fee to have a meter tested by an outside party shall be \$375.00, or the actual cost charged by the third party at the time of testing. If the meter is found to be functioning correctly, the customer will be responsible for the testing fee. If the meter is found to be non-functioning, the Borough will be responsible for the fee.
